On-board Attendance by Authorized Service Engineer

(Health Check, Trouble-shoot and more)

General Information

- We recommend periodical health check to keep your purifiers in good condition.
- On-board attendance by a Service Engineer charges:
 - the actual travel / waiting time, working hours, daily allowance(s), and transport expenses of our service engineer etc.
 - If the attendance requires multiple days, lodging expenses will be also charged.
 - High hourly rates apply for weekends, holidays and early/late working hours.
- Most of our service engineers are available for overseas assignments if necessary.

Service Attendance Menu

A. Health Check of your purifiers

- Requires 1.5 hours per purifier (for both FO & LO).
- Order at least before 2 business days of the attendance.

B. Trouble Shooting / Inspection of the Purifier

- The required time is estimated on a case-by-case basis.
- Full support from the crew is necessary.

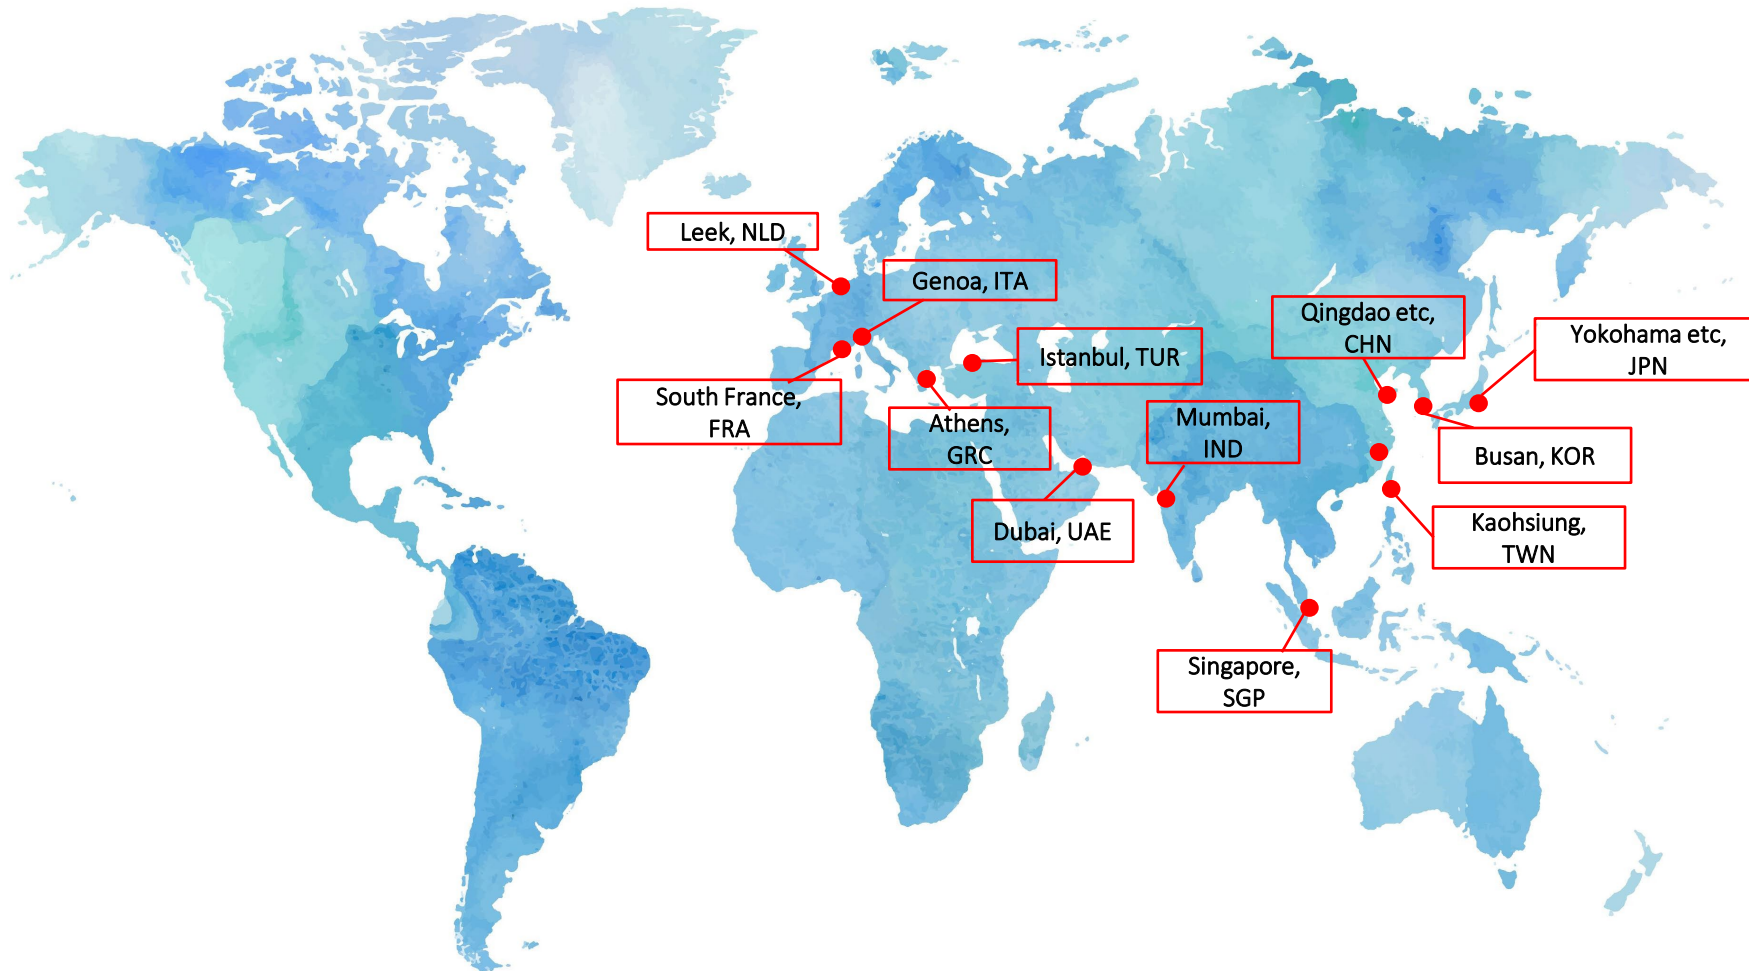

C. Overhaul (O/H)

- Requires 2 days per purifier (for both FO & LO).
- Partial O/H such as bowl O/H is also available

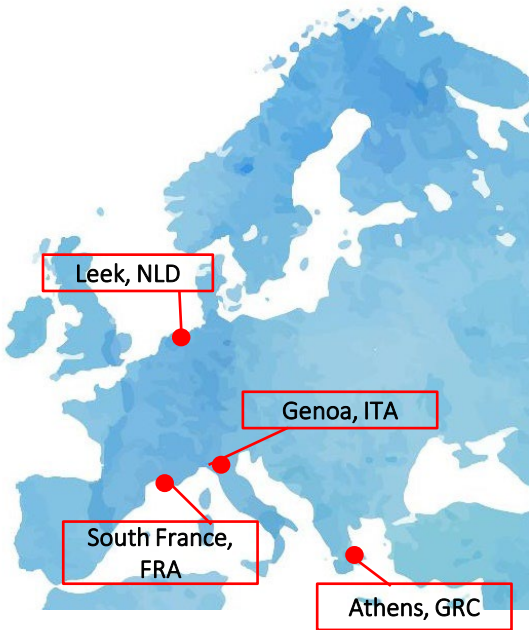

*For all services, the actual costs incurred will still be charged even if you cancel.

* For overseas work, we require support from the customer to obtain a [Short-term Work Visa](#) of our service engineer.
